Mr. Mike Clark
Stanley Security Solutions
Sargent and Greenleaf Division
One Security Drive
Nicholasville, KY 40356

Dear Mr. Clark:

Based on Test/Evaluation number SG-ESL-000010-2740, the S&G electromechanical combination lock submitted for GSA approval against Federal Specification FF-L-2740A has been determined to meet the specification requirements. The following table will be added to the next revision of the Qualified Products List.

| GOVERNMENT DESIGNATION | MANUFACTURER'S DESIGNATION "BRAND NAME" | TEST OR QUALIFICATION REFERENCE NUMBER | MANUFACTURER'S NAME (See SUPPLEMENT for addresses and plants not listed here.) |
|------------------------|--|---|--|
| Class K | 2740 | SG-ESL-000010-2740 | Stanley Security Solutions Sargent and Greenleaf Division One Security Drive Nicholasville, KY 40356 Plant: Stanley Security Solutions Sargent and Greenleaf Division One Security Drive Nicholasville, KY 40356 |

The listing applies only to products identical to the products qualified. GSA must be advised of any changes to the product. Failure to notify GSA of a change to the lock is cause for removal from the QPL.

Periodically, GSA may require qualified manufacturers to submit a sample of the current product to ensure continued compliance with the specification requirements and qualification provisions. Failure to comply will be sufficient cause for removal from the QPL.

If you have any questions, please contact Chris Pollock at (703) 605-9256.

Sincerely,

Jeffery Schatz
